hi there can i have some advice on painting procedures on engine parts eg inlet in the hotrod scene is with 2 pack paint over a good 2 part primer, preferably epoxy. I don't think I primed the rocker covers I mentioned due to vht instructions. I am just starting prep work on painting the gas tank on my 1985 Magna V45. engine paint, it was applied as per the instructions and allowed to harden for 5 days VHT roll bar paint, claimed to be epoxy on the label but no activator, brake.
